THE PHOENIX'S ASCENT

Metaguise™ encapsulates a journey of resilience and rebirth, akin to the phoenix rising from adversity to become an emblem of architectural innovation.

Rooted in Shri Deepak Raheja's founding principles, we embody a mindset where 'Anything is Possible', redefining destiny through unwavering determination and pursuit of excellence.

Our ascent from adversity stands as a testament to vision and unyielding commitment, symbolizing an indomitable spirit that infuses every creation with endurance, revival, and the artistry of a soaring phoenix.

Welcome to our world.

REDEFINING ARCHITECTURAL LANDSCAPES

Metaguise™ pioneers redefined architectural landscapes through exquisite high-end metal facades, showcasing the versatile beauty and functionality of metal. Each creation, from contemporary sleek to intricately classical designs, embodies sophistication and innovative craftsmanship.

Crafted meticulously from premium aluminum, corten steel, copper, brass, and stainless steel, our facades marry artistic mastery with cutting-edge precision,

upholding stringent safety standards through rigorous testing in extreme conditions. With an in-house team of devoted engineers and designers, we ensure top-tier quality in design and development, propelling innovation.

As the epitome of metal elegance, Metaguise™ creates timeless expressions of luxury and architectural finesse, elevating spaces to realms of extraordinary beauty and sophistication.

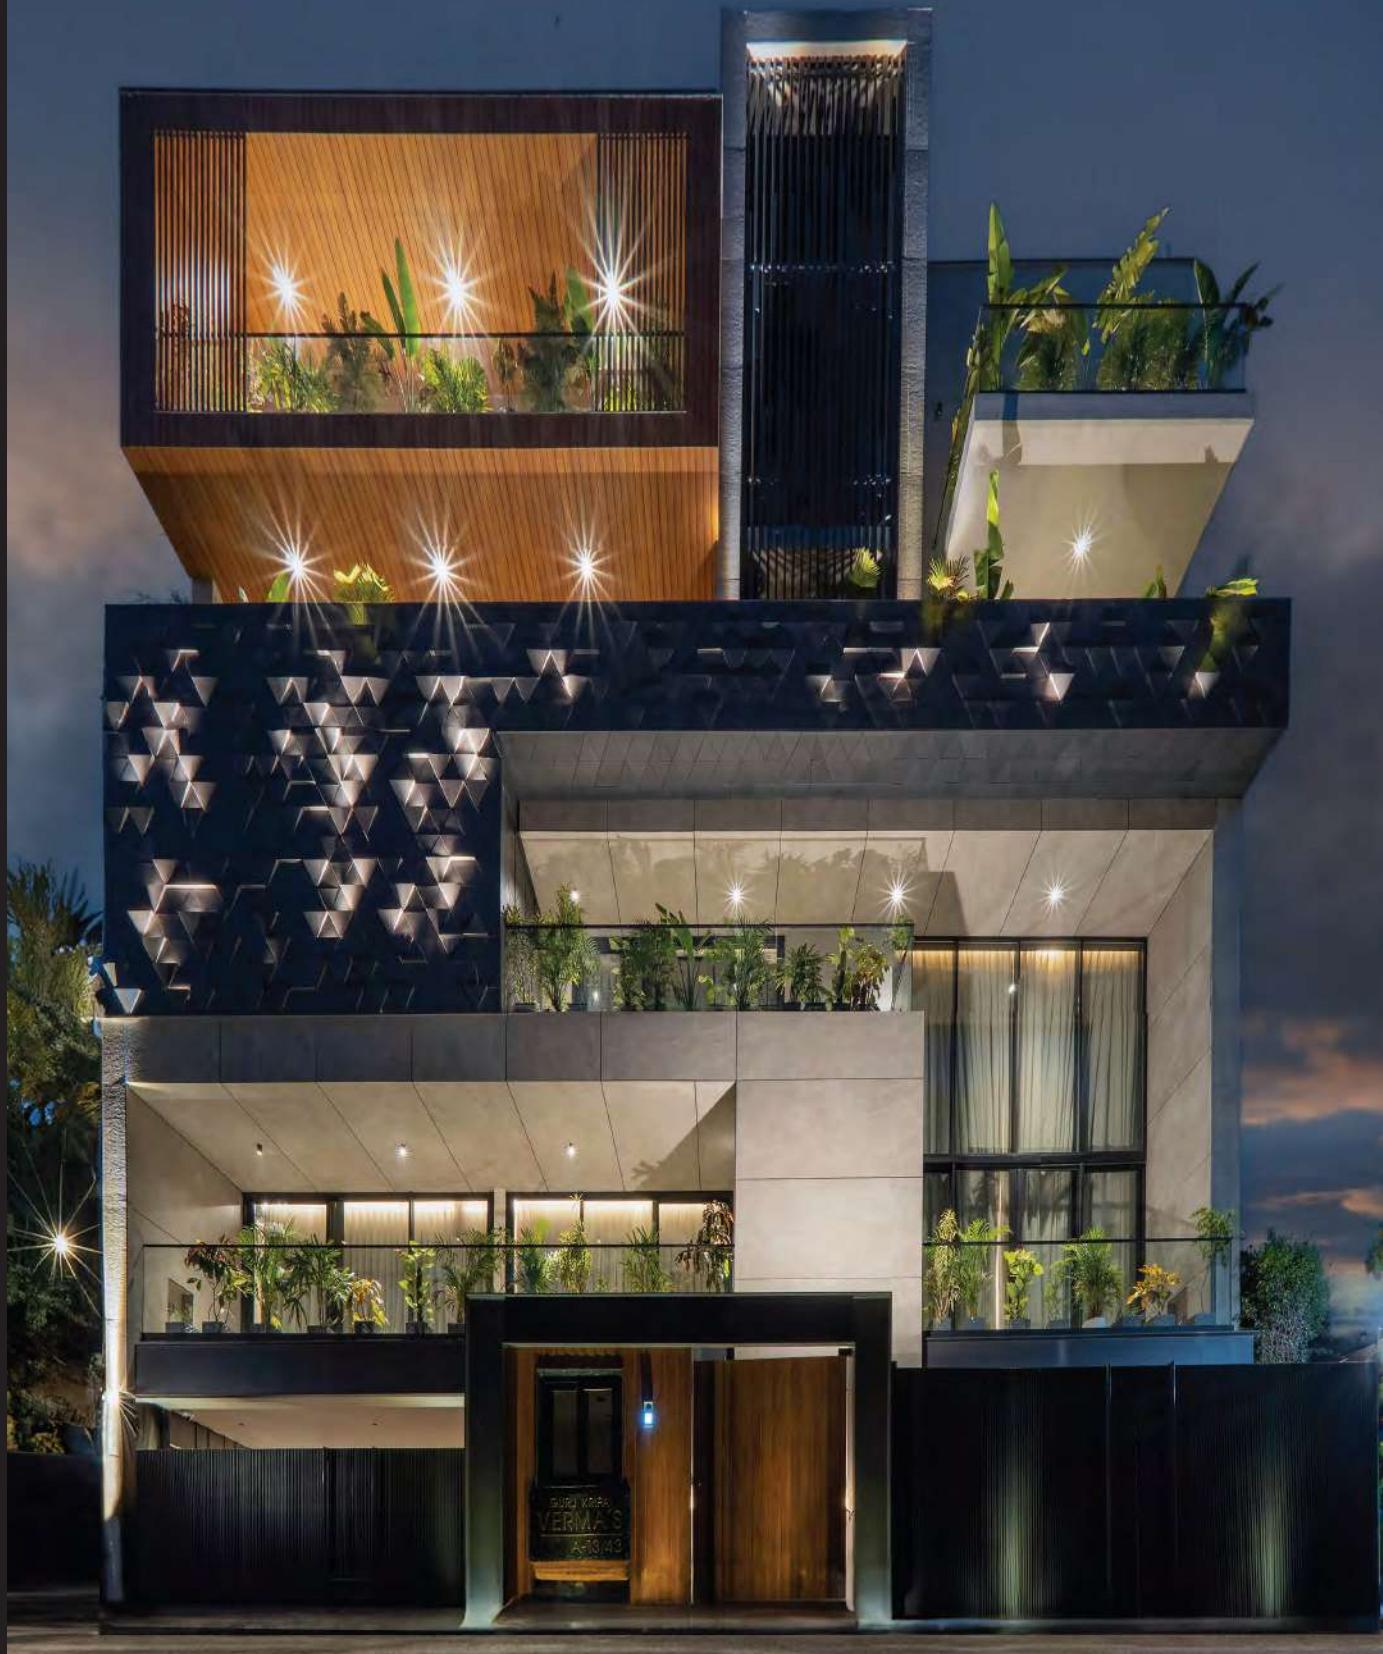

ardere

METAVISION

DRV (Shri Deepak Raheja's Vision) is the bloodline of all meta organizations, based on the life lessons taught by our founding father specifically focusing on a mindset "Anything is Possible" when the will is unbreakable, standards un-challengable, energy in-exhaustible, morals un-corruptable and the aura unstoppable.

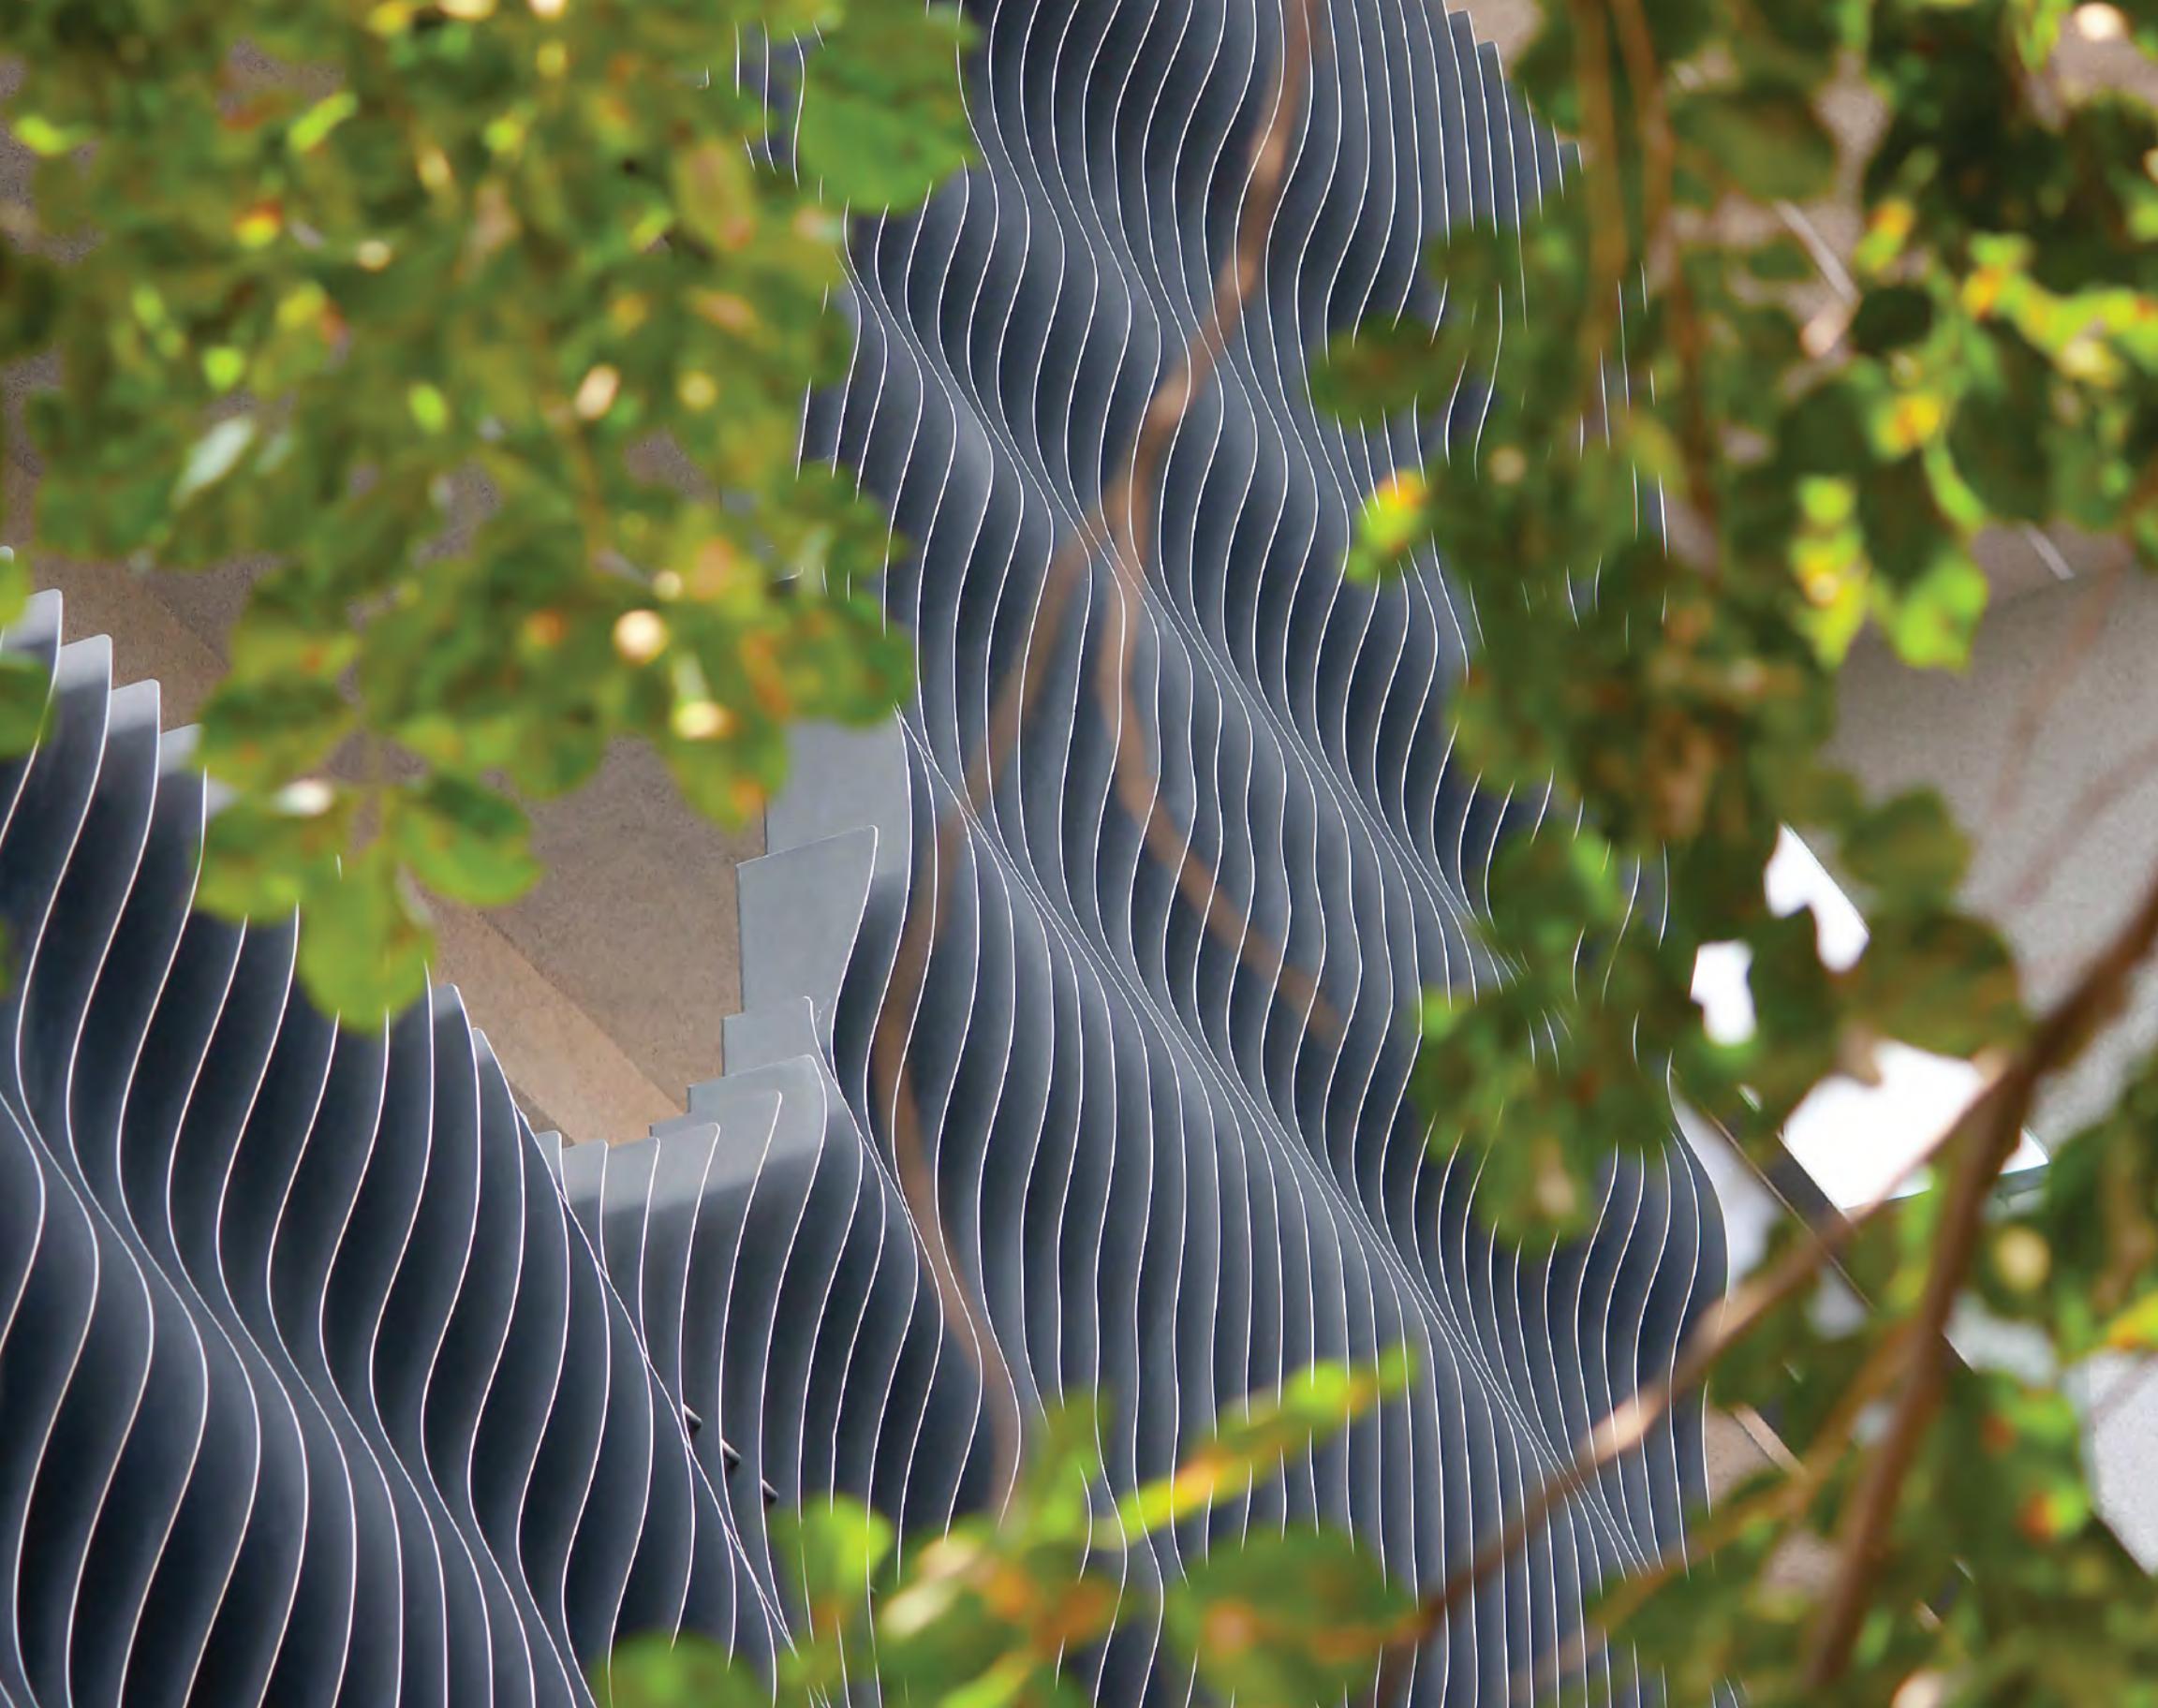

METAFORM

Meta Form embodies our dedication to pioneering architectural excellence. It celebrates a range of innovative materials meticulously curated for façade creation. Our expertise blends modern and traditional materials, transforming spaces into artistic expressions of luxury and sophistication.

Meta Form offers durability, sustainability, and aesthetic charm, embodying a narrative of artistry, innovation, and timeless architectural finesse.

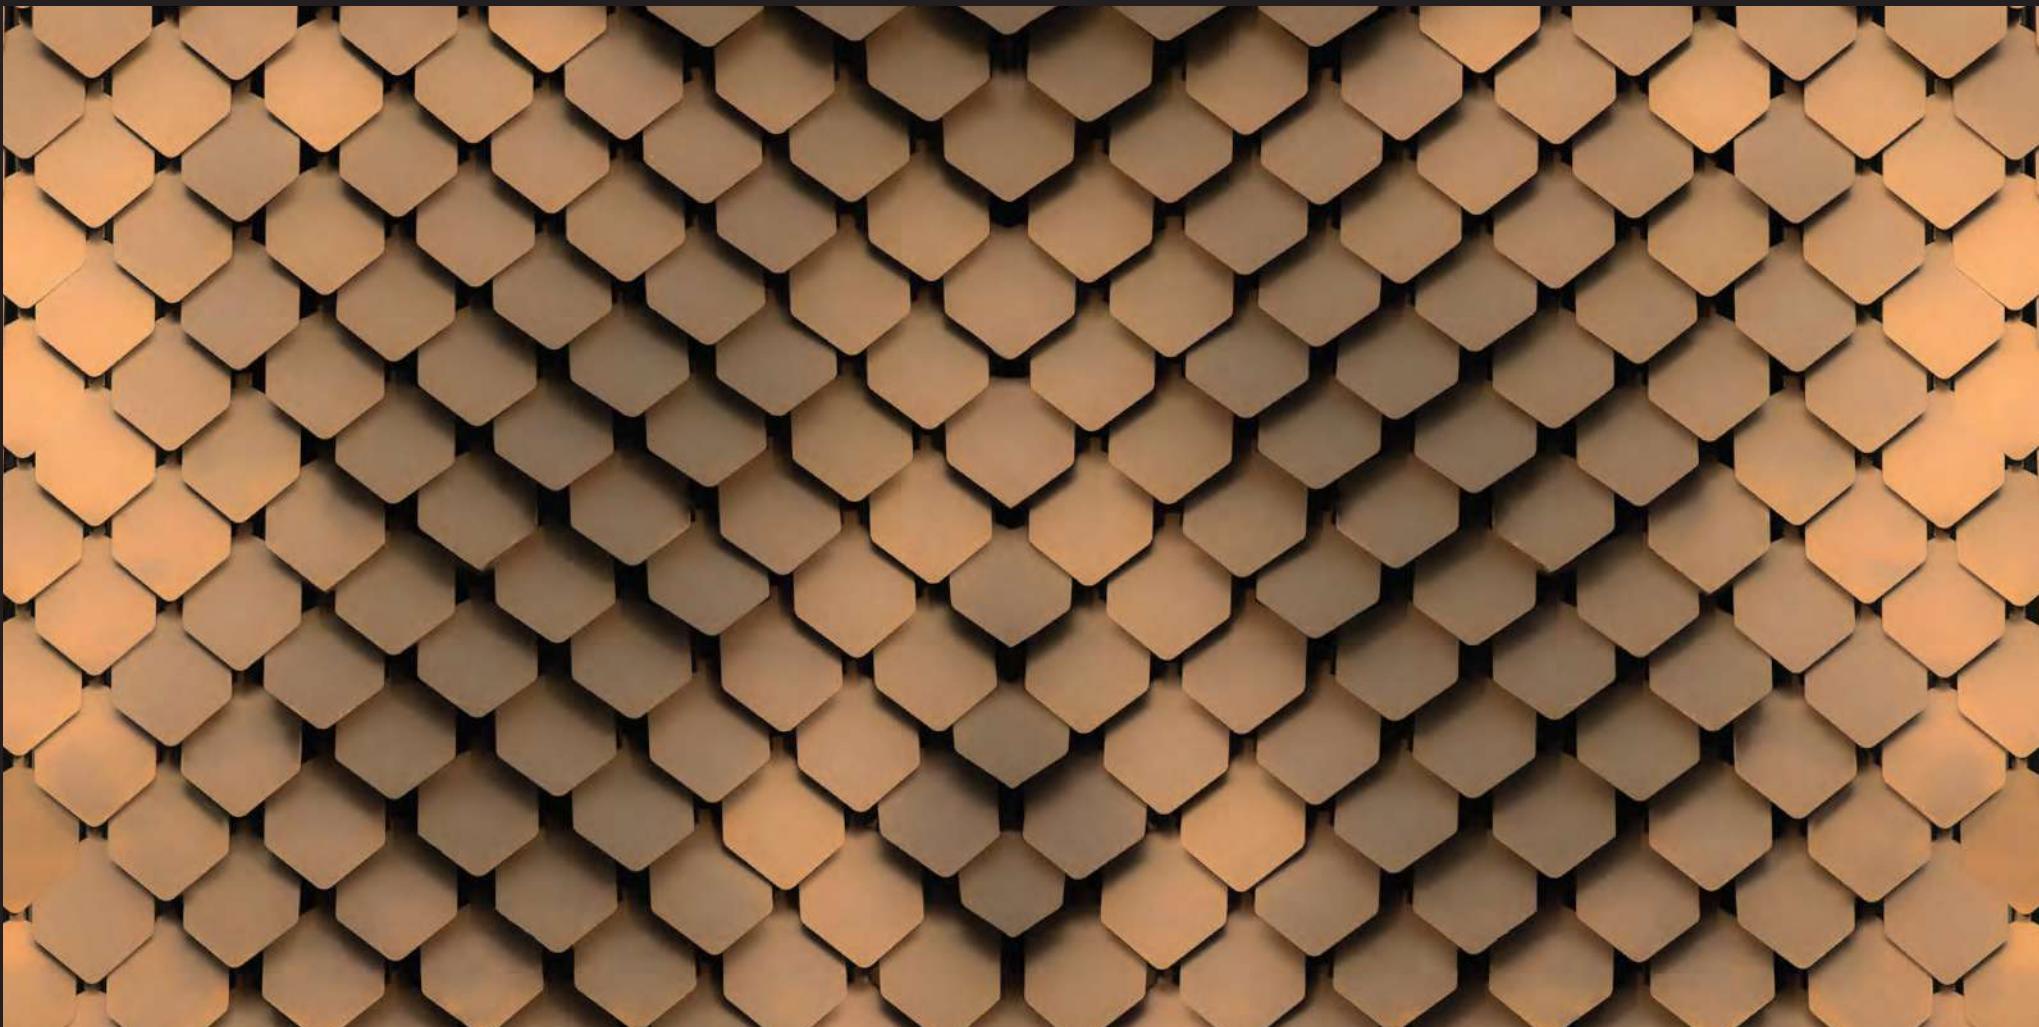

METASEQUIN

A fusion of art and architecture, our unitized Parametric Screening System transcends physical constraints with algorithmic grace. Unveiling an enchanting narrative of illusion and movement, it seamlessly blends intricate designs in aluminum with Meta Surfaces—a testament to the extraordinary union of form and function.

METACOIN

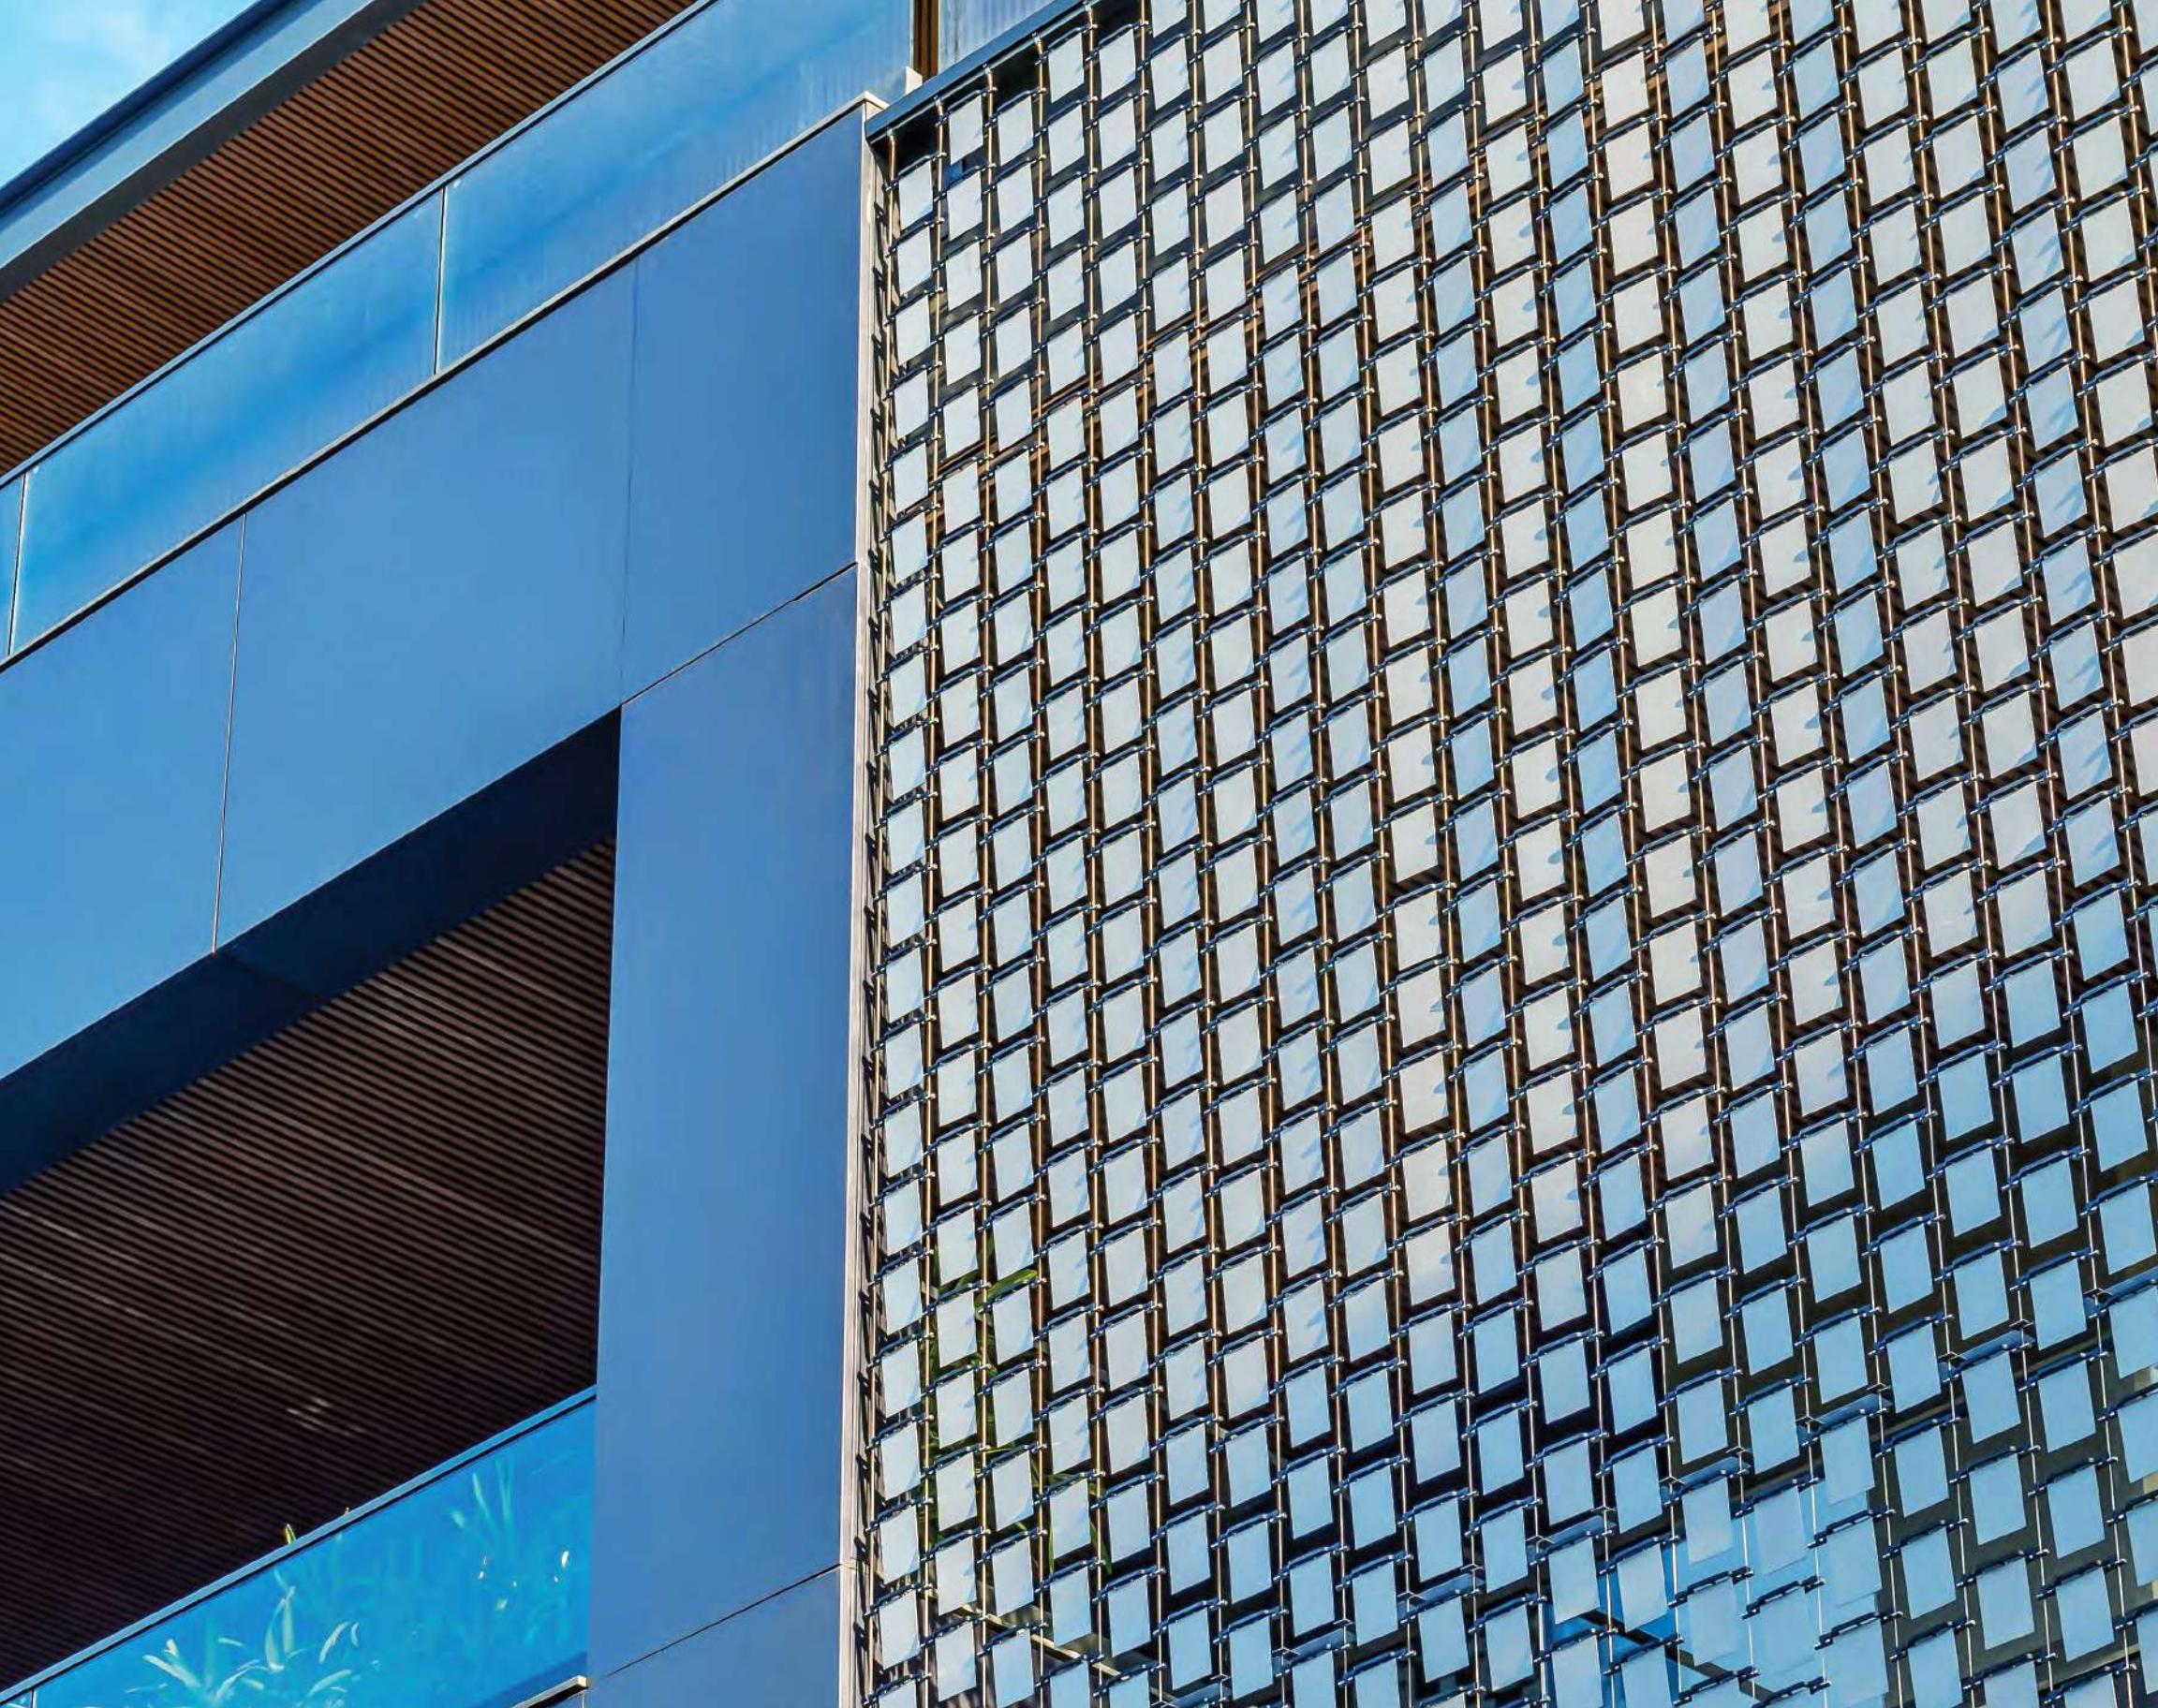

A fusion of artistry and engineering, unfolds through patented technology. Crafted from pure Aluminum Alloy, enriched with Meta Surface Finishes, each panel resists time, metamorphosing into a timeless symphony of design and light making it a durable canvas for visionary dreams.

CASCADING KEYS

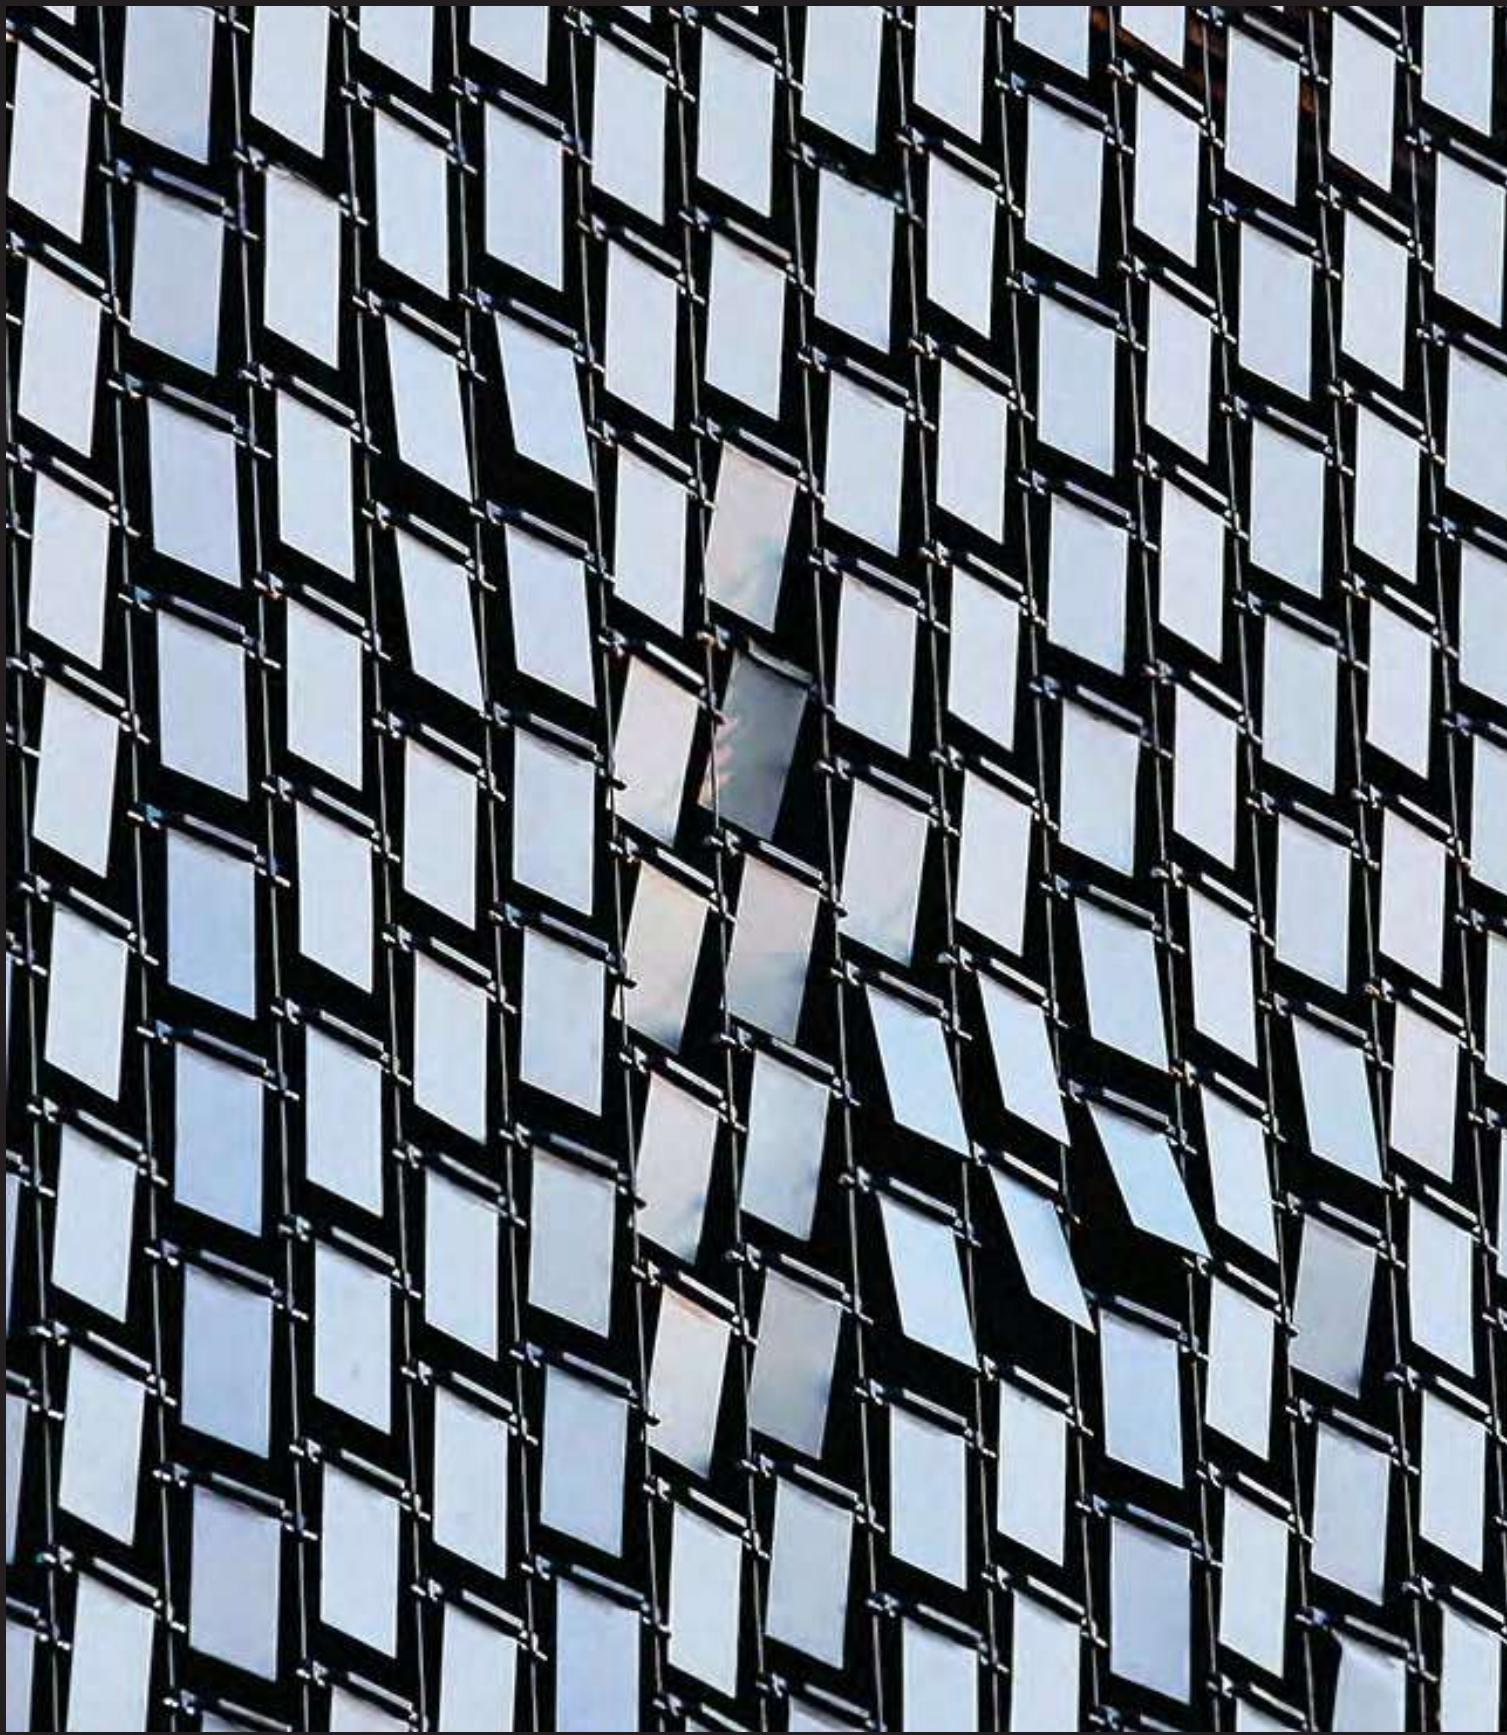

Graceful aluminum and stainless steel forms dance harmoniously, resonating with nature's melody or bathing serenely in daylight. Like a tranquil wind chime or the fluttering of butterflies, the sweet hum of birdsong, the illusion of metal captivates the senses and mind.

METAFIN

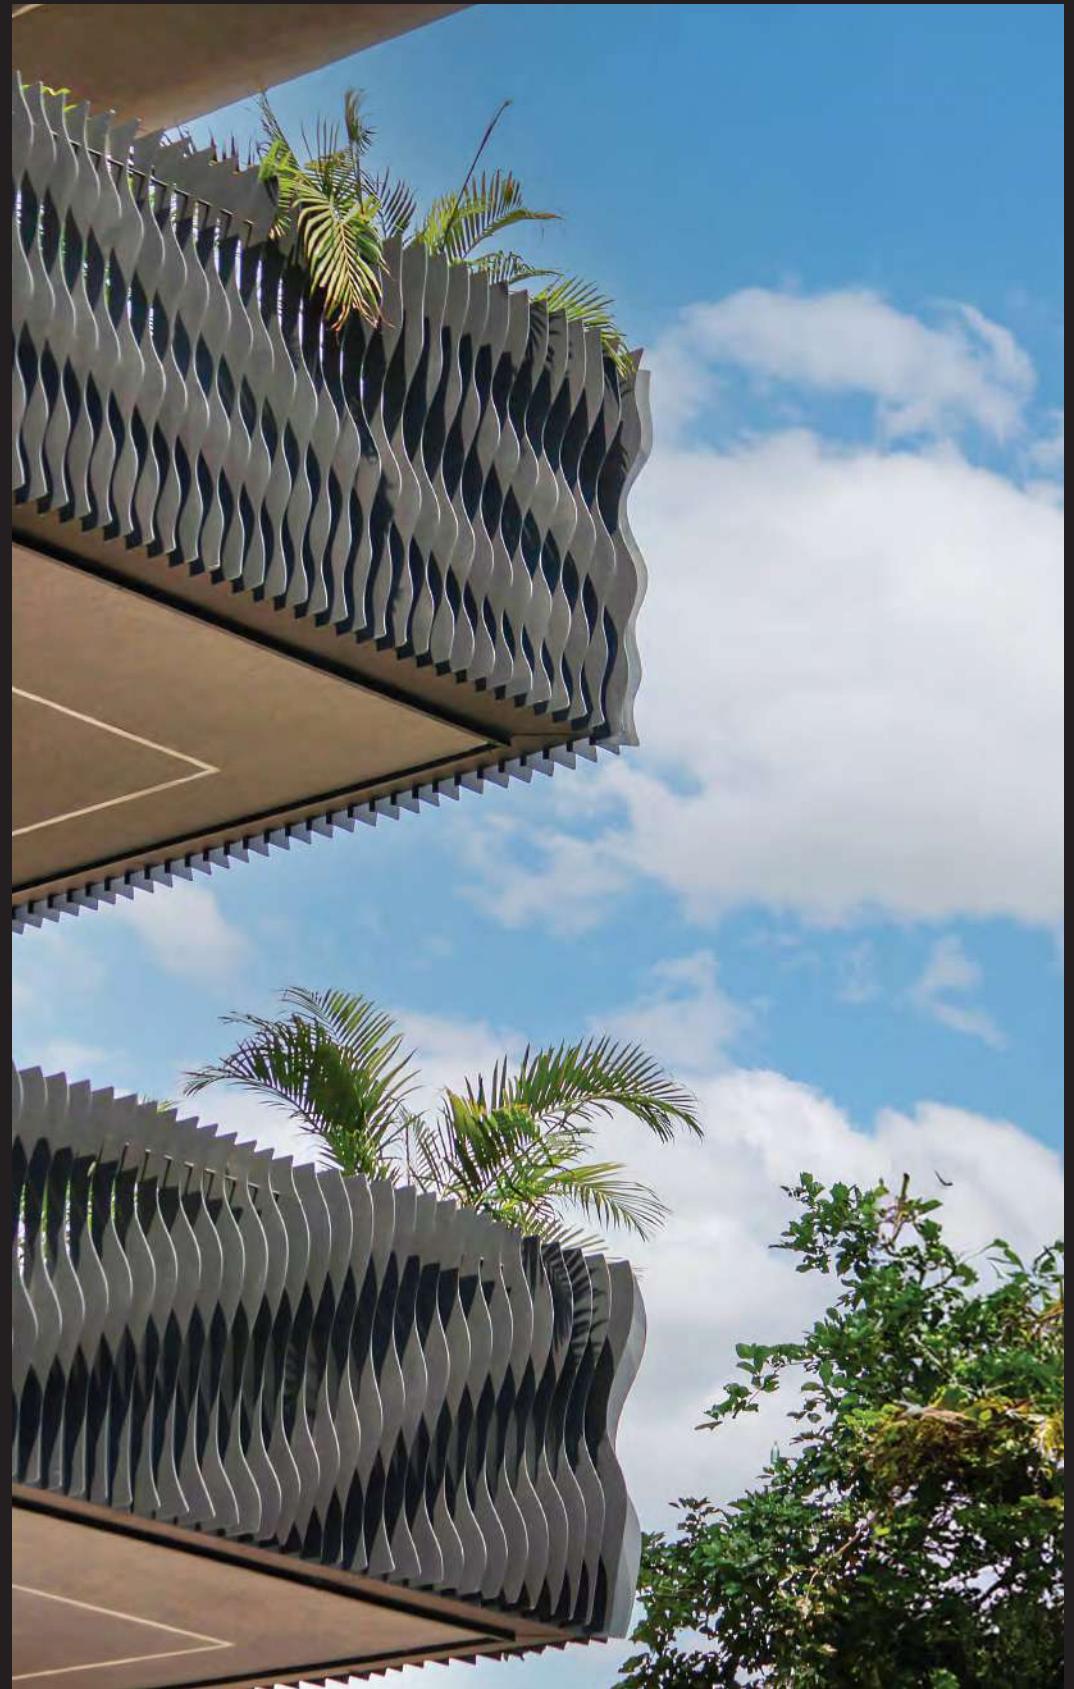

A masterpiece merging Science and Art with parametric precision, intricately uses lightweight metal. Crafted parametrically, its organic contours form a choreography of lines and curves, inviting exploration into its enigmatic depths—a genuine marvel of human creativity.

Click Here

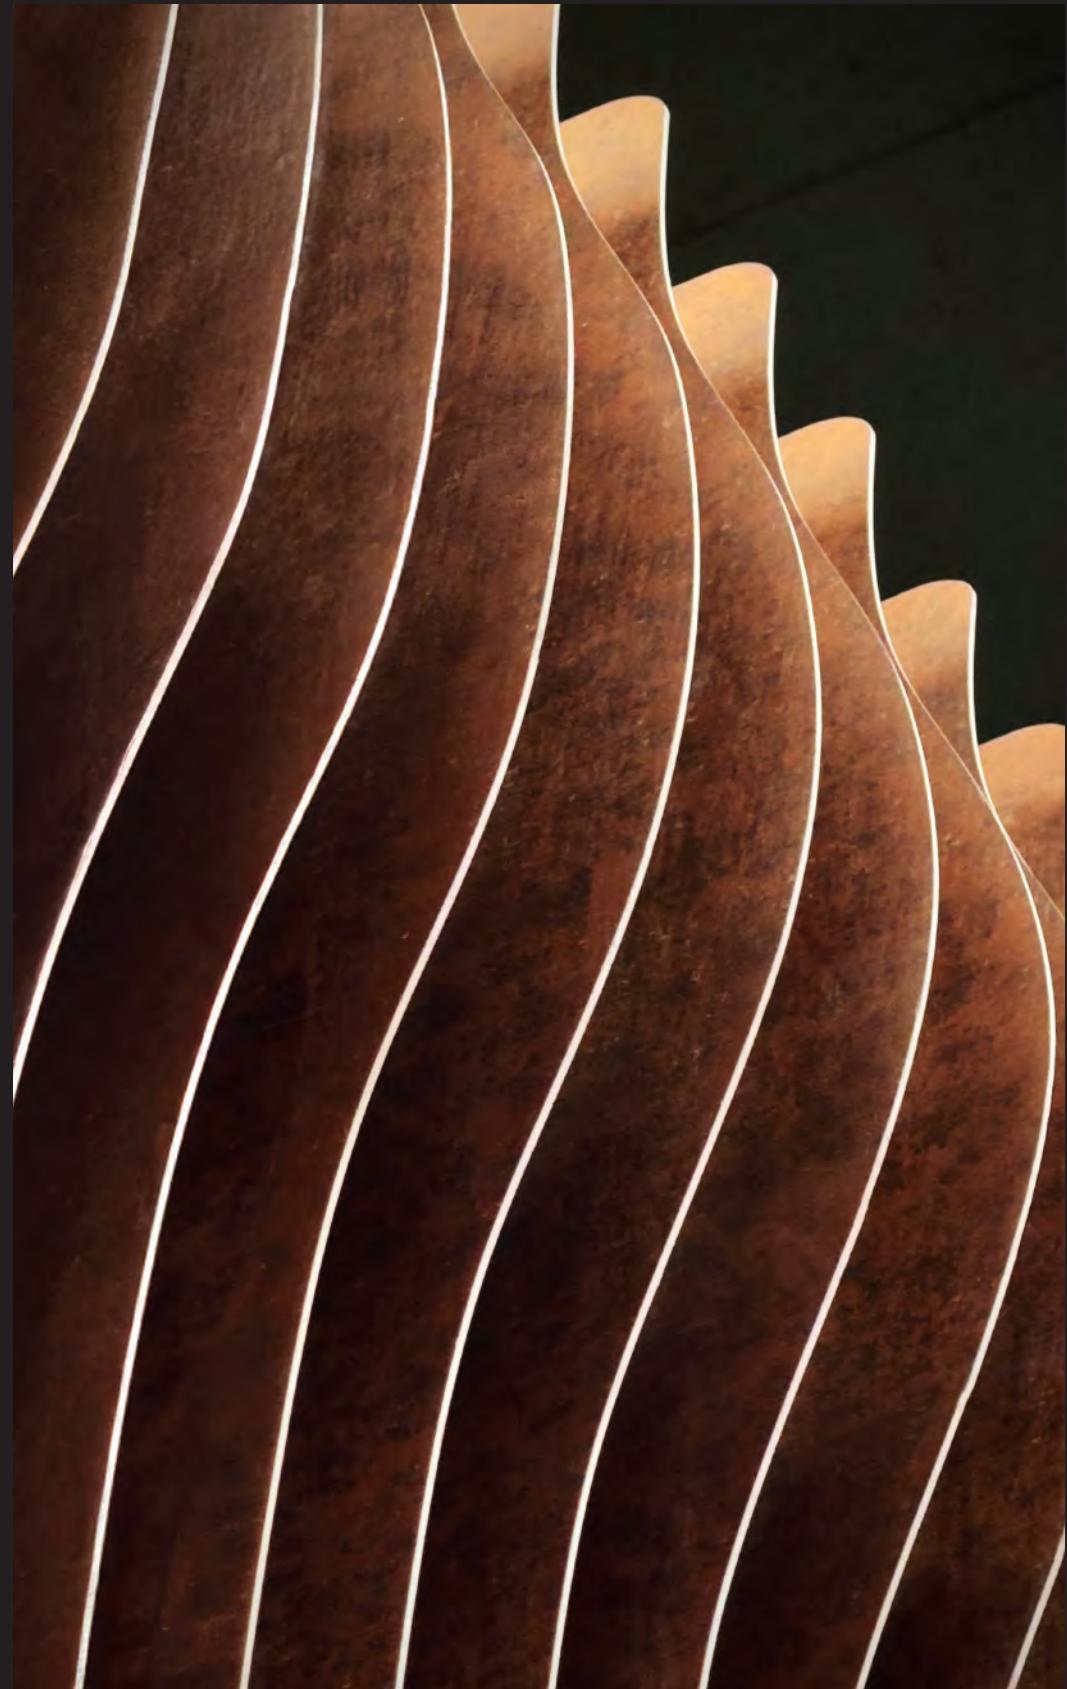

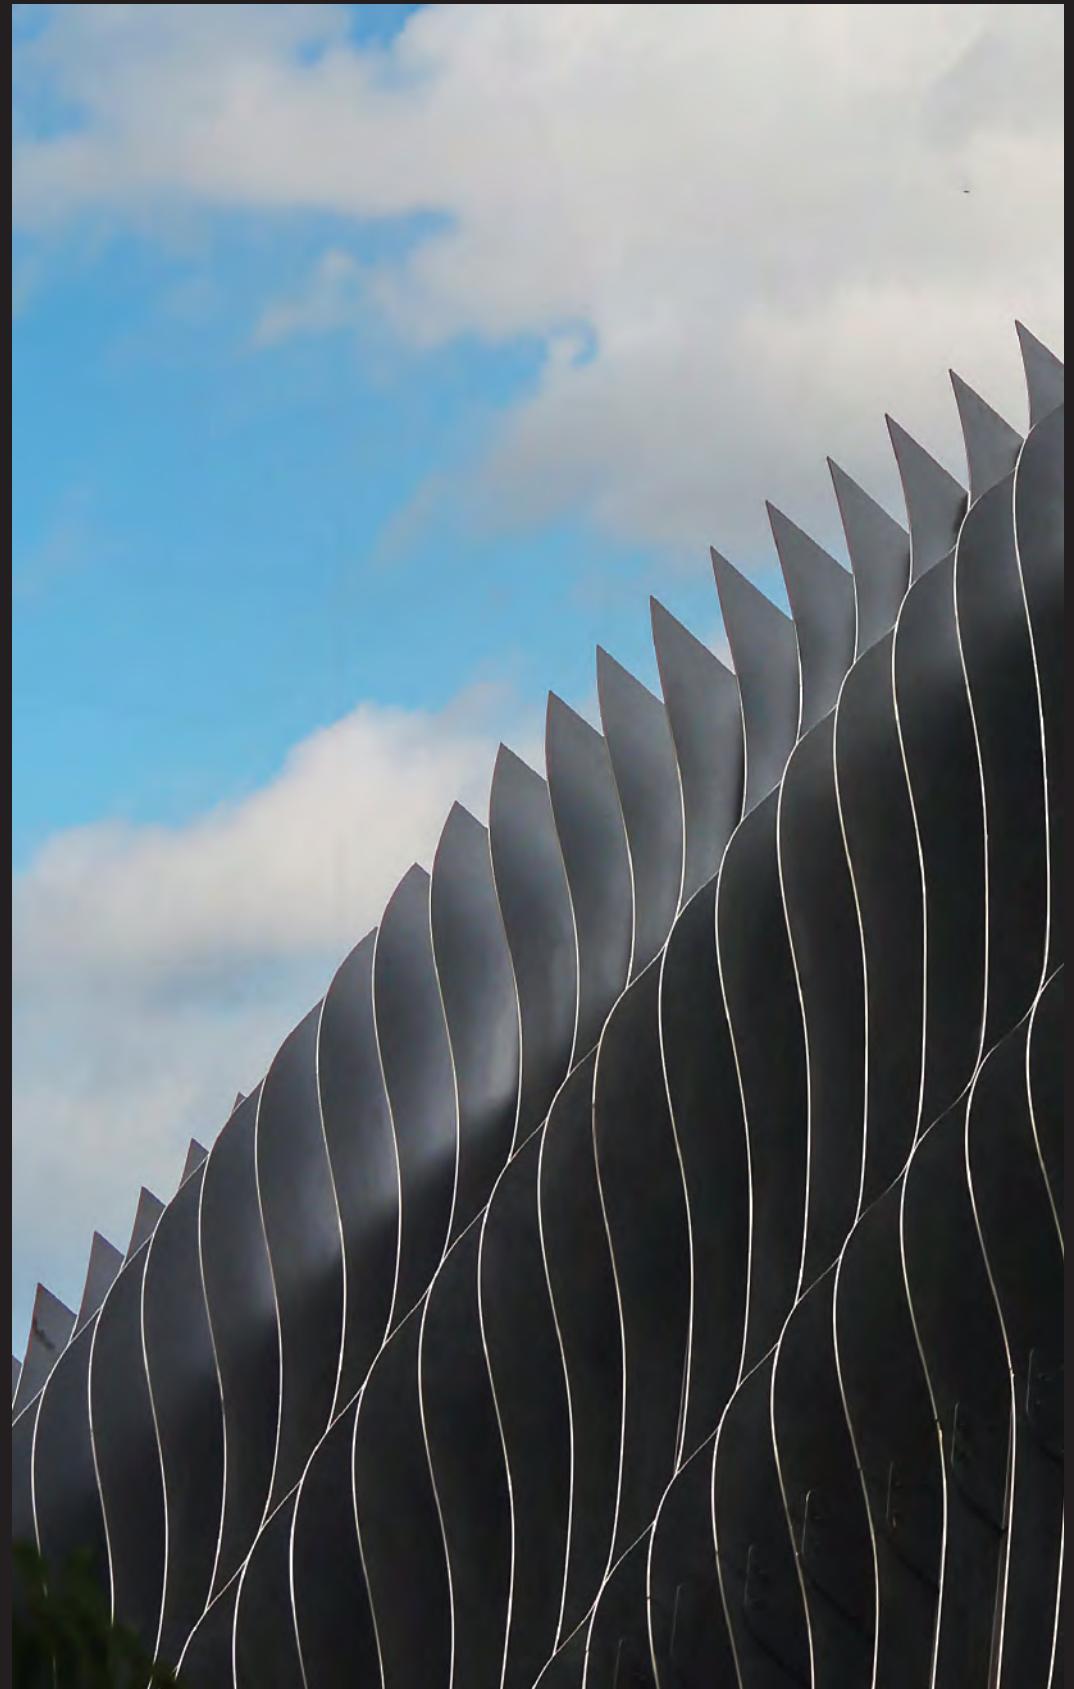

to see MetaFin in action

METAHYDRA

A marvel of parametric facade technology, emerges as an artful creation, expertly forged from 99.9% pure copper. Sculpted from the essence of the deep sea, it seamlessly intertwines art and science, embodying resilience through the living, color-shifting metal—a testament to the purity and craftsmanship of copper.

META CASSETTE

MetaCassette melds beauty and function into the architectural narrative, redefining facade design with its versatile range of panels.

The Grooved Panels, crafted with precision engineered grooves, add depth and sophistication, creating a seamless blend of texture and structure.

Complementing them are the Perforated Panels, featuring bespoke patterns and intricate perforations that offer a captivating interplay of light and shadow, enhancing both functionality and aesthetic appeal.

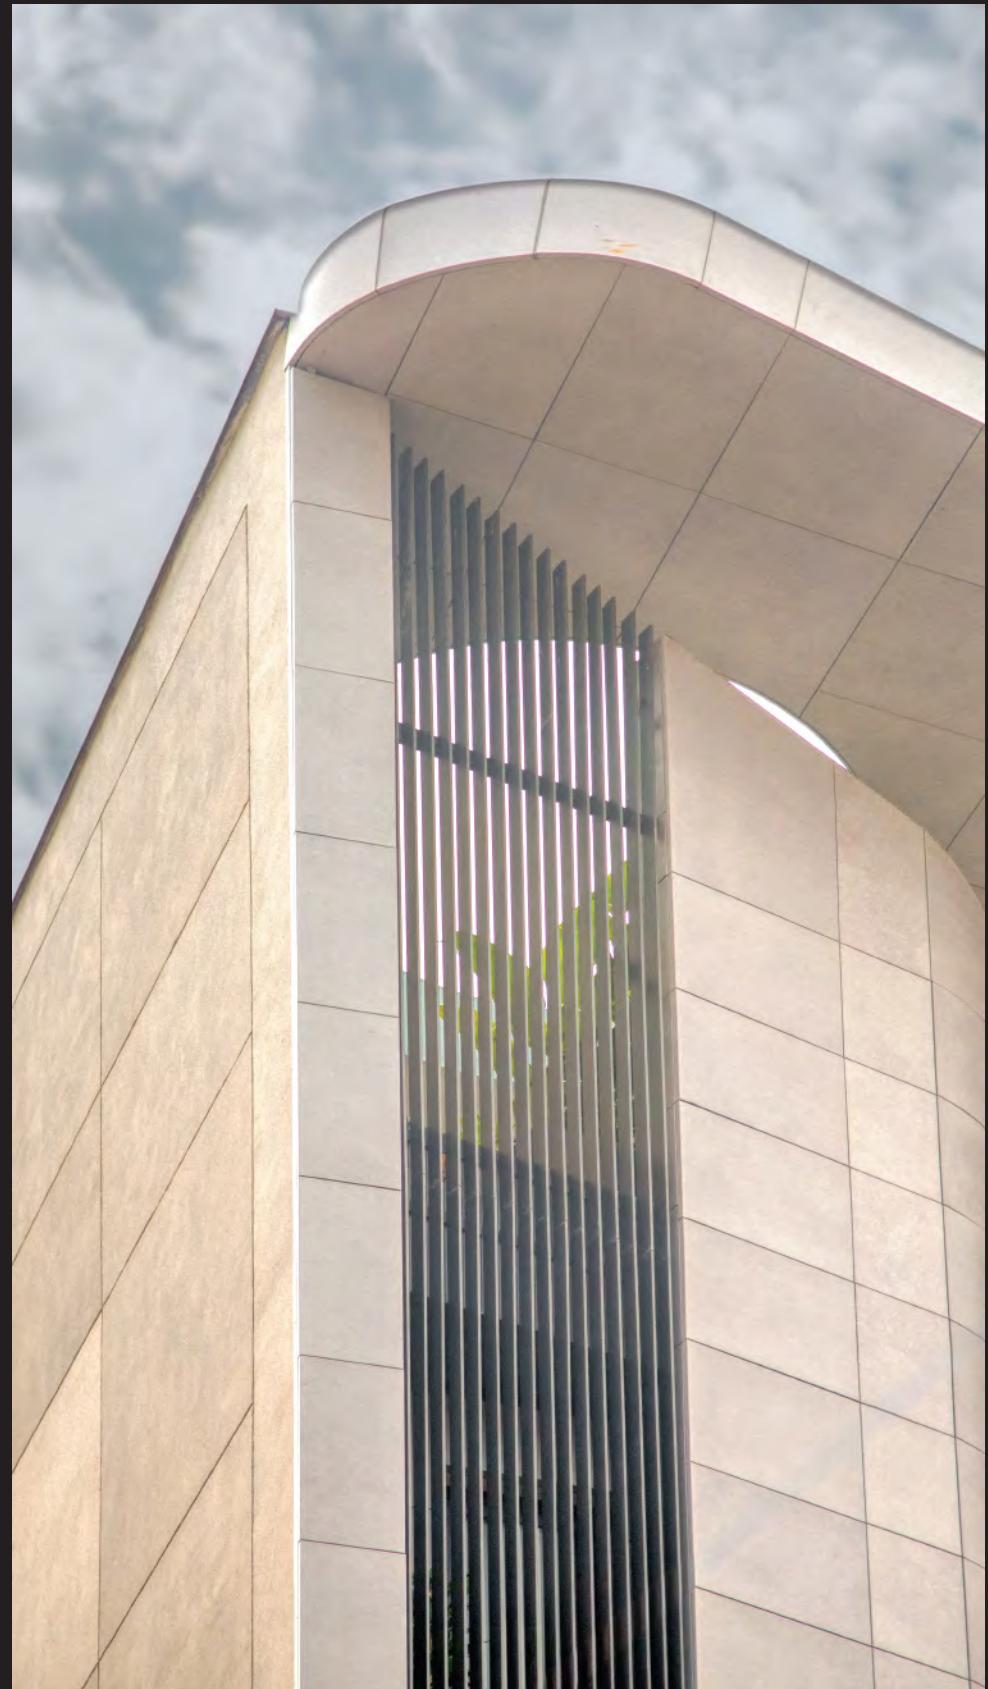

Together, these panels bring breath through their perforated elegance and extend life with the solid embrace of grooved textures, setting a new standard in architectural design.

METAMESH

Born of metal's artistry, echoes room dividers' grace,
versatile in facades, screens, and shutters—a tale spun in
versatile threads.

META PLANK

Aluminum extrusions in slender designs, producing striking lines and a robust, maintenance-free facade.

META SURFACE

Metaguise's Surface Materials represent an eclectic canvas of design possibilities, featuring an array of textures and finishes. Each surface material embodies a story—a narrative of innovation and artistry.

These surfaces transform spaces into bespoke expressions of luxury and sophistication, all while meticulously curated to enhance architectural elements. Our commitment to design excellence is evident in the seamless integration of these surfaces, where every touch and finish speaks volumes about our dedication to quality and aesthetic finesse.

TANISHQ
A TATA PRODUCT

METACOPPER

Crafted at MetaLab™, MetaCopper seamlessly merges into both traditional and contemporary architectural styles.

Beyond its visual appeal, copper boasts inherent properties that transcend aesthetics. This versatile and durable material is an ideal choice for architectural surfaces.

Its remarkable thermal and electrical conductivity not only illuminates spaces with a rustic ochre-red vibrance but also elevates clean and minimalistic designs.

MetaCopper stands out for offering antimicrobial properties and exceptional resistance to corrosion, serving as a testament to both visual elegance and functional excellence.

METAPATINA

Crafted through the advanced accelerated Patination process at MetaLab™, MetaPatina introduces a captivating verdigris tint that gracefully adorns our custom designs. The process enhances the surface of the Pure Copper/Brass Alloy, infusing it with the distinct anti-microbial properties of copper.

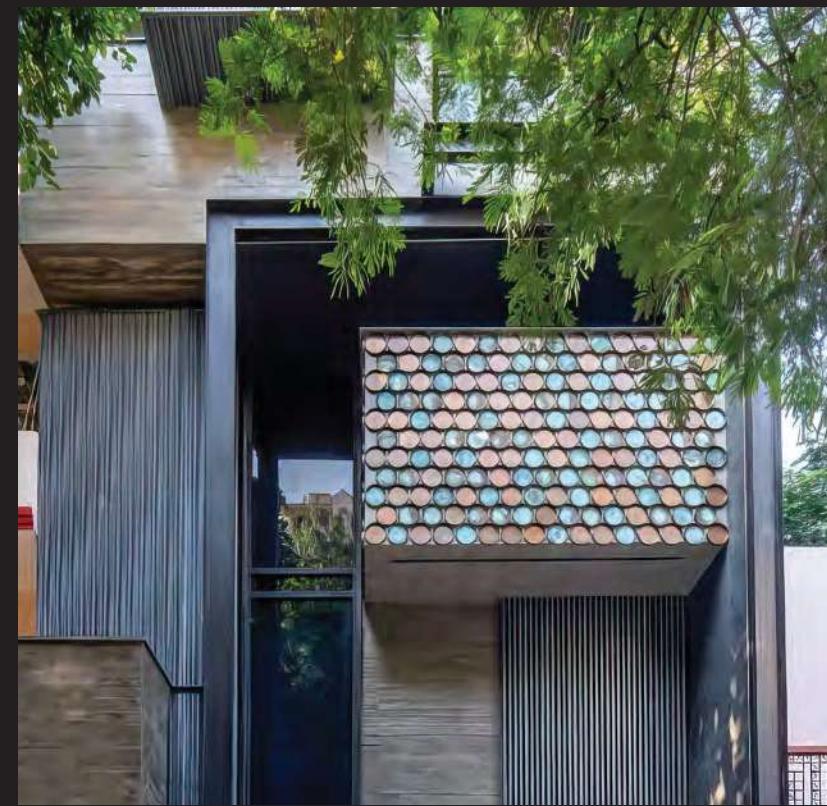

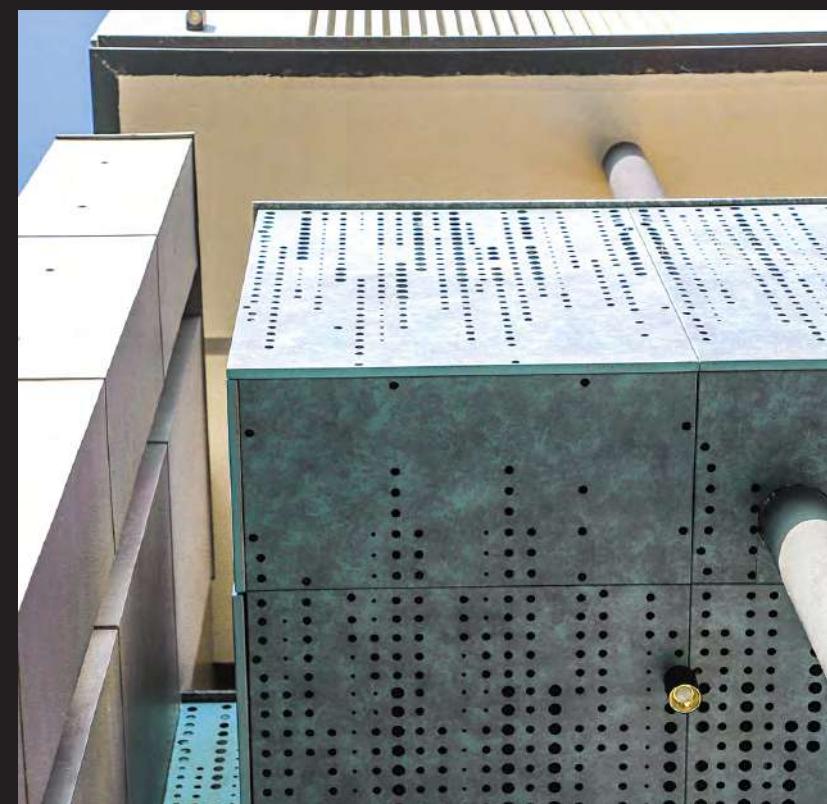

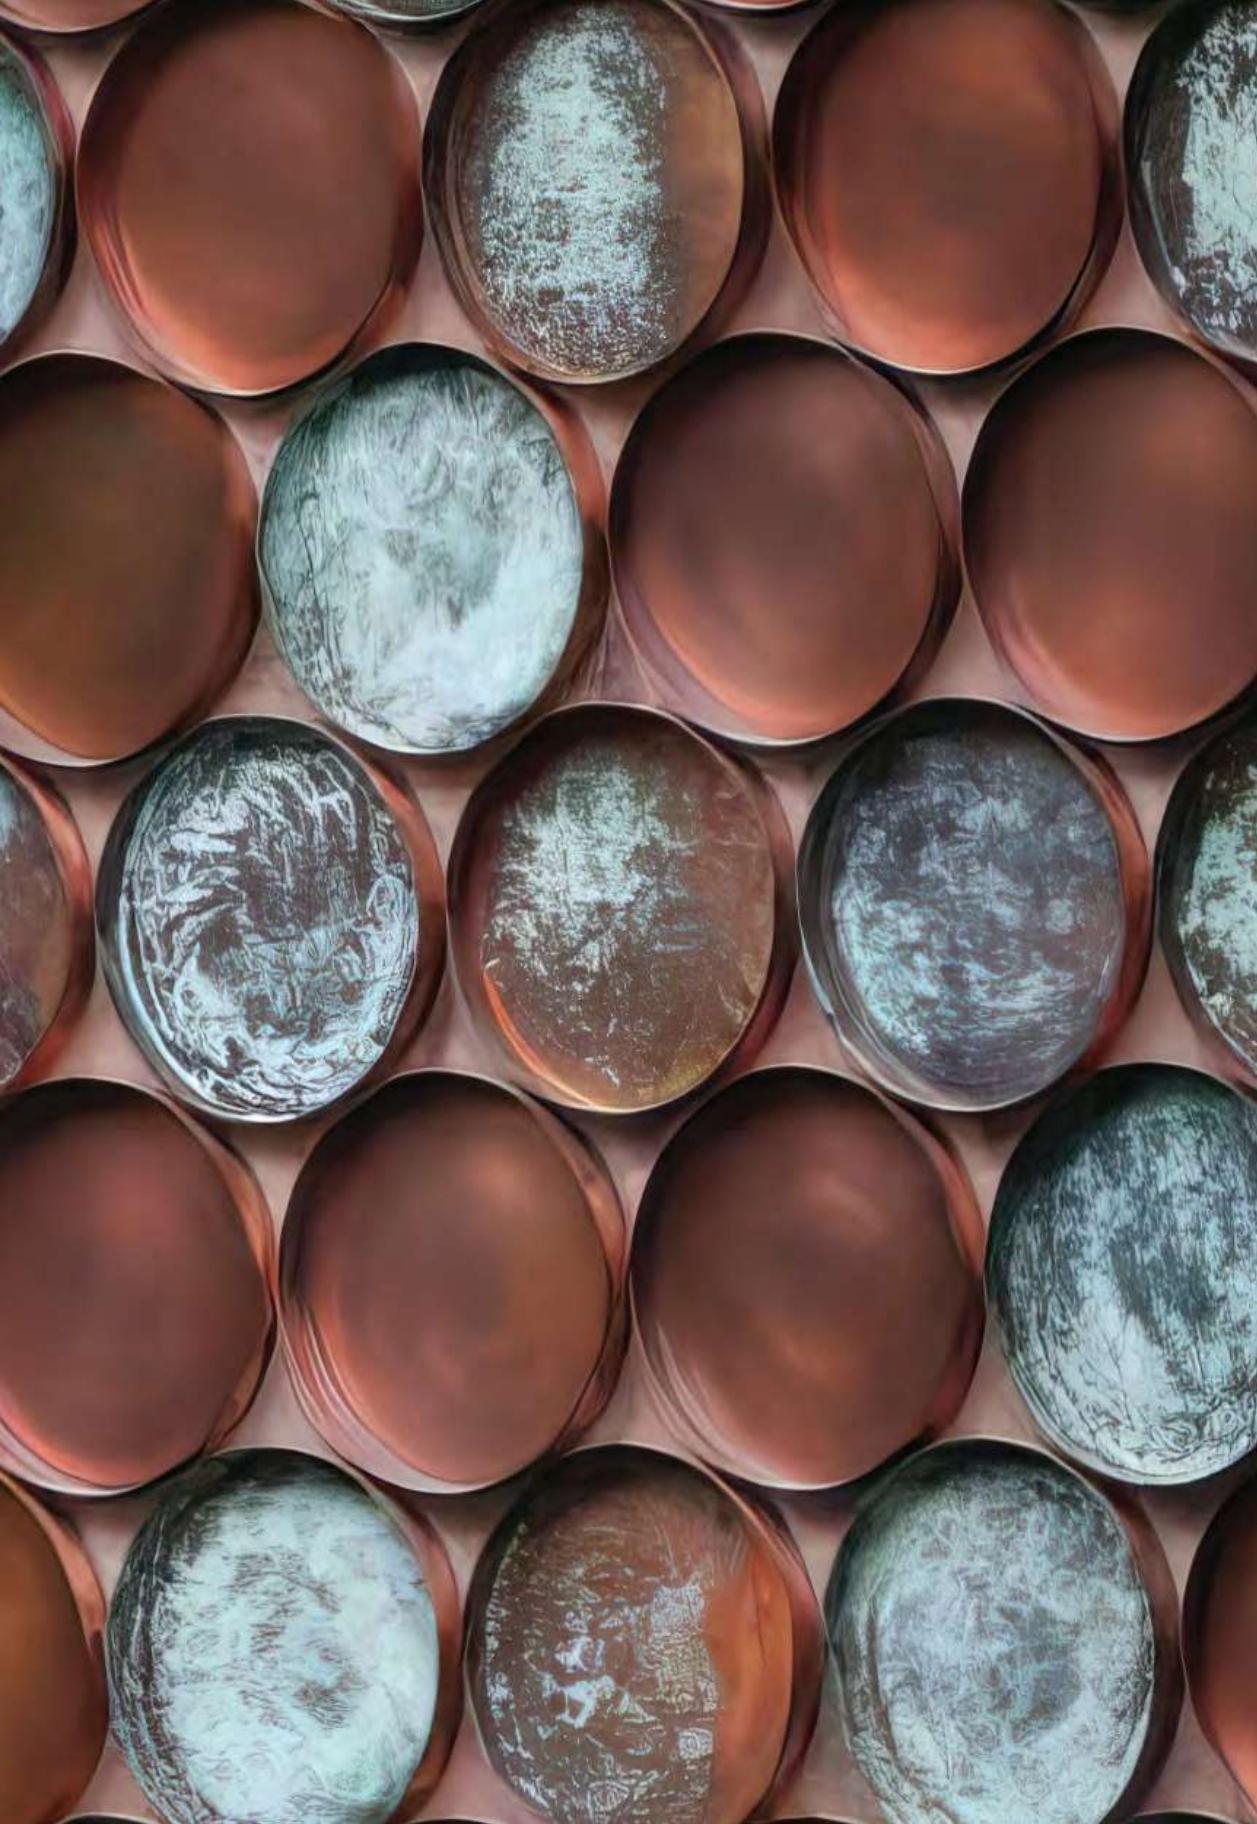

This unique surface treatment not only embodies artistic elegance but also offers functional benefits ideal for living spaces. The formation of patina provides an exquisite finish that not only ages gracefully but also reinforces the material, increasing its durability and resistance to corrosion. Vibrant blue accents, born from this patination, harmoniously intertwine with the inherent warmth of copper, imparting both flamboyance and a palatial ambiance to spaces.

METACORTEN

Seamlessly embracing the allure of weathered steel, it embodies a maintenance-free solution for exterior cladding. With exceptional weather resistance and stain-free surfaces that maintain a rich, abstract reddish-brown hue for 20 years, it evolves aesthetically over time.

MetaLab's Corten Sublimation process ensures a rust-free and environmentally friendly finish, perfect for modern architecture.

METAWOOD

Embodying sustainability in the modern era, MetaWood offers a harmonious alternative to traditional wood. Its metallic composition transcends conventional boundaries, allowing a shift from short-sighted consumption to a value-appreciating investment.

With earthy brown speckles reminiscent of natural wood, MetaWood stands as an all-weather, termite-proof, and environmentally compatible solution. Its resistance to fire and stains, ease of maintenance, and repair flexibility outshine traditional wood, making it a cost-effective and weather-resistant architectural option.

META FUNCTION

Meta Function embodies the harmonious integration of functionality with design. This category represents our commitment to seamlessly blending innovative mechanisms, such as folding and sliding systems for doors and windows, alongside automated gate solutions, into the aesthetic fabric of architectural design. It's a testament to our dedication to enhancing living spaces with products that effortlessly merge practicality with sophisticated design.

METAFOLD

Multi-facet panes fold, marrying indoor and outdoor living in an elegant dance of openness.

METALAND

BRIDGING THE PRESENT AND THE FUTURE

MetaLand by Metaguiise is DRV's immersive experience centers across India, redefining architecture through cutting-edge sensory technologies.

Here, visitors can actively engage in an interactive journey to explore the forefront of architectural possibilities. It's where innovation and imagination converge seamlessly, to showcase the dialogue between contemporary wonders and the limitless potential of future architecture.

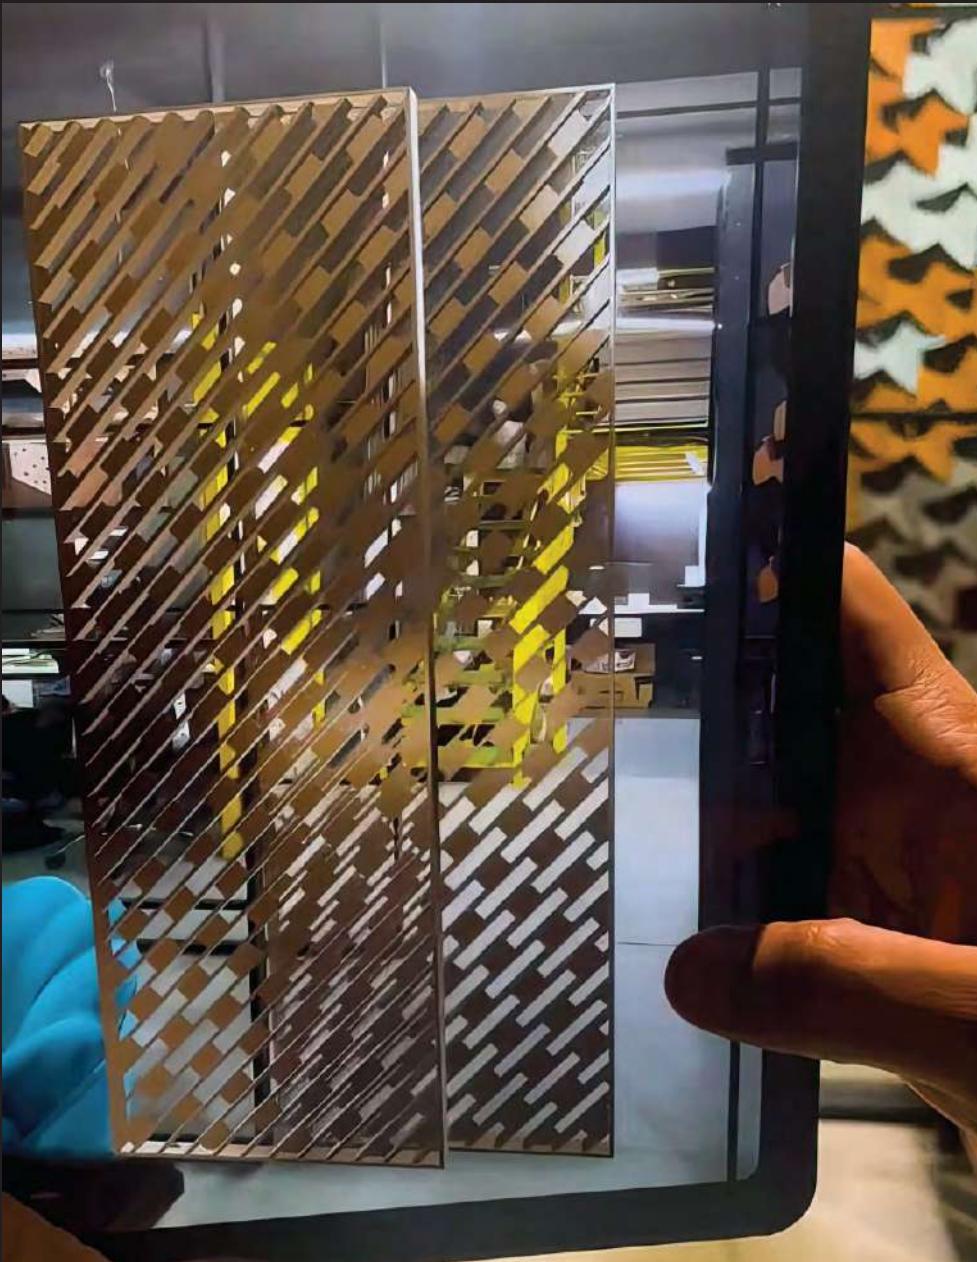

MetaLand is not just a destination; it's an immersion into the essence of architectural evolution.

SCULPTING THE FUTURE

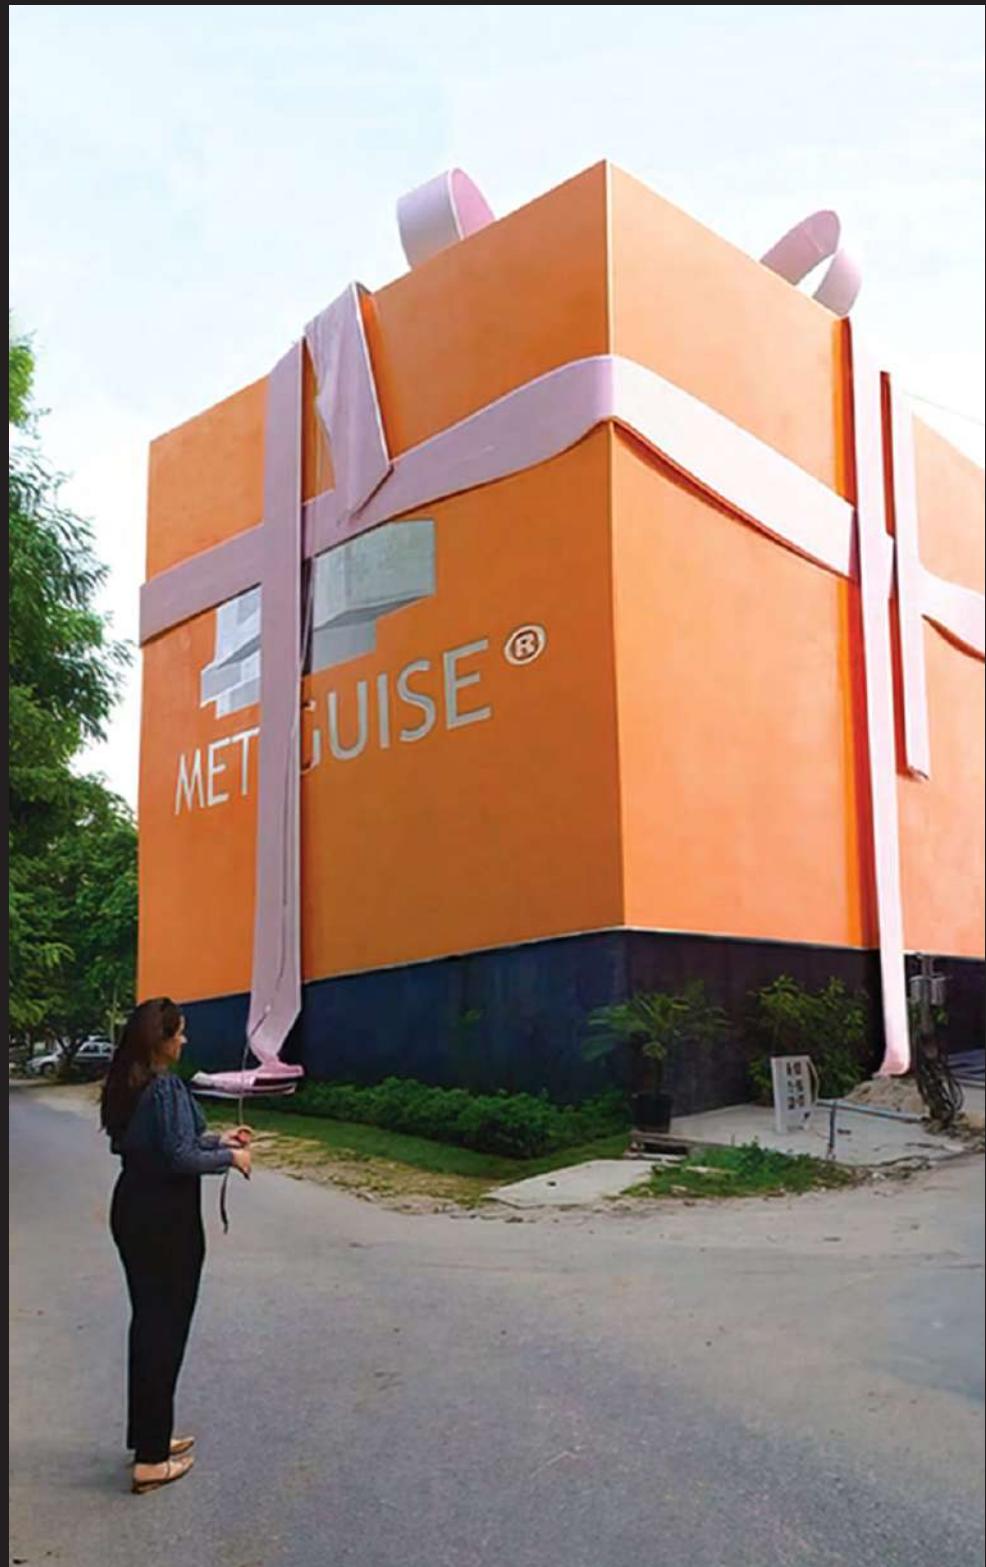

Augmented Reality (AR)

Embracing the dawning era of technology, Metaguise is sculpting the future of architecture through a fusion of cutting-edge innovations. Augmented Reality (AR), Virtual Reality (VR), Computer-Generated Imagery (CGI), 3D technologies, and Artificial Intelligence (AI) are the foundational pillars defining our journey into a realm where imagination meets construction.

AR and VR offer an immersive portal into envisioned spaces, allowing clients to step into the heart of their architectural dreams before they materialize. CGI brings the abstract to life, crafting visual narratives that transcend the ordinary, while 3D technologies foster precision and depth in design.

AI, the catalyst of intelligence in our creations, enables us to tailor architectural solutions that learn and adapt to human needs. This intricate interplay of technologies isn't just about constructing buildings—it's about sculpting experiences and breathing life into design, revolutionizing the way architecture unfolds.

Acknowledgements

In creating this illustrious portrayal of our craftsmanship and innovation, we are deeply grateful for the tireless dedication and support of numerous individuals and organizations.

We extend our heartfelt gratitude to the entire Metaguise team, whose unwavering commitment to excellence and ingenuity has been the driving force behind this opulent project. Your creativity, passion, and relentless pursuit of perfection have shaped the essence of this publication.

Special appreciation goes to our esteemed clients, whose trust and collaboration have been instrumental in our pursuit of architectural finesse. Your visionary projects have been an inspiration and a testament to our shared pursuit of brilliance.

We express our sincere thanks to the talented photographers, designers, and contributors whose artistry and expertise have breathed life into these pages, showcasing the essence of our work with unparalleled beauty.

We also acknowledge the support and guidance from our partners, suppliers, and everyone whose contributions have played a crucial role in the realization of this exquisite collection.

Lastly, to our families and friends, for their patience, encouragement, and unwavering support throughout this journey. Your belief in our vision has been our strength.

This book is a culmination of shared efforts and passion, and we extend our deepest appreciation to all who have played a part in bringing this vision to life.

METAVISIONARIES

ENGINEERING PROWESS

Experience the transformative power of architectural ingenuity with Metaguise. Our engineering team brings creative visions to life through unparalleled craftsmanship and meticulous attention to detail.

From comprehensive engineering and detailed drawings, to rigorous product and facade testing, we ensure our premium materials endure every possible environmental condition in terms of both form and function.

This thorough evaluation guarantees the highest standards of safety and reliability before construction begins. Our MetaForce

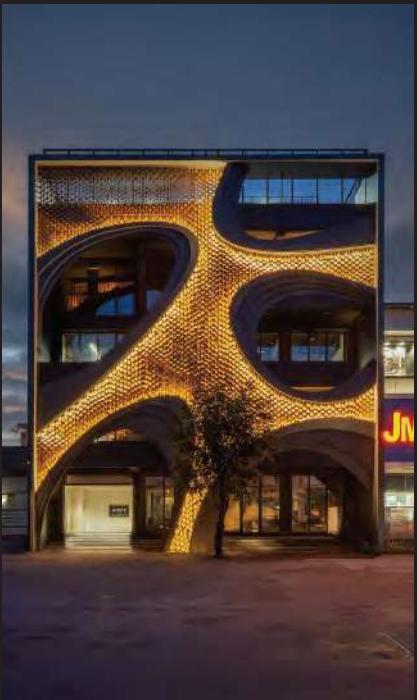

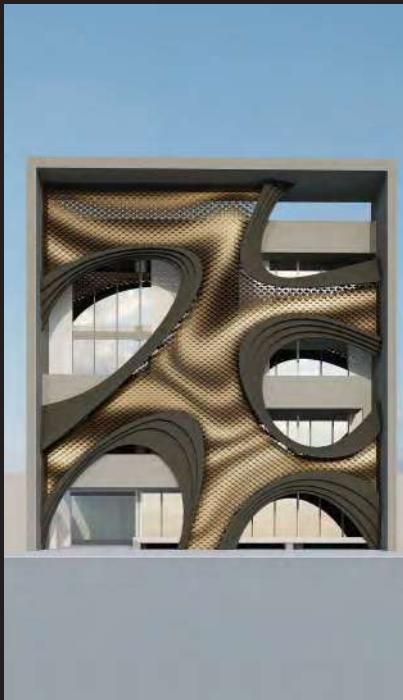

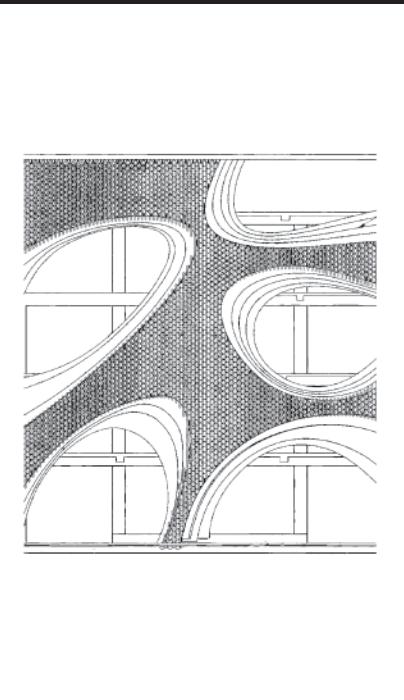

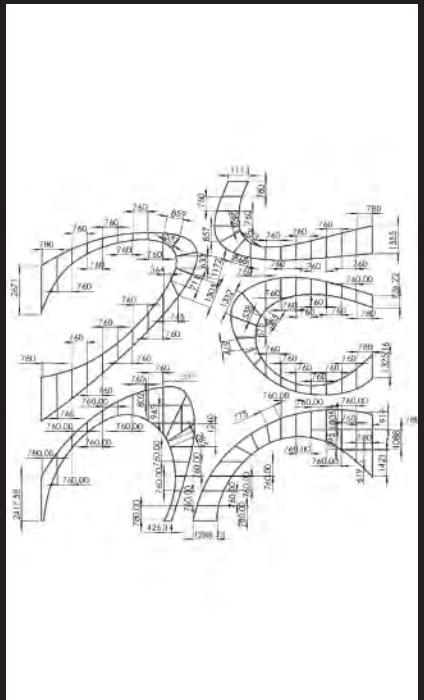

plays a crucial role, leveraging advanced computational design tools to create adaptive facade systems that optimize both aesthetics and performance.

With deep mastery over every aspect of facade construction, the MetaForce handles complex projects with precision, setting new industry benchmarks in precision, craftsmanship and safety.

Through our work, we invite you to reimagine the urban landscape—a modern canvas of possibility shaped by imagination and the true realization of visions.
